

CLASS WILL AND TESTAMENT

We, the members of the High School Class '78 of the University of the Philippines College Iloilo, all physically fit, emotionally stable (the volcano within us ready to burst at the slighted provocation) do make this Will, the true and only valid Testament, thus disposing our responsibilities, gratefulness, experiences and idiosyncrasies.

To the UPCI, we pledge our undying love, loyalty, and gratitude; we offer all laurels we achieve and promise to uphold its prestige.

Our heartfelt thanks to our beloved teachers who patiently instilled in us the knowledge we badly needed and for their altruistic and remitting efforts in making us worthy individuals.

To the Juniors, we leave to you the following things and experiences:

- ... the sines and cosines*
- ... the one and only physics room (with the newly-laundried curtains, mind you)*
- ... the rifles and the "extra-libog" sword (instead of Excalibur)*
- ... the theories of Einstein, Planck, Coulomb (the theory of Bokie Espinosa will be released two years from now)*
- ... the term papers for Vocational Guidance*
- ... double overtime in Trigonometry (gutom na kami)*
- ... the side-effects of the preparation for the Tactical Inspection*
- ... trees we planted for the PROFEM*
- ... our singing practice every afternoon in Rooms 3NB and 4NB*
- ... our "you-can-go-out" sessions in Music*
- ... the dusty CAT office*
- ... J-S and formal dinner experiences*
- ... Rooms 3NB and 4NB together with the graffitti*
- ... Theme writing in Ma'am Jamerlan's class*
- ... our line of seven grades in Trig.*
- ... management of various organizations*
- ... the promise we made every end of the school year — to make good the next school year*
- ... the old issues of the KASANAG*
- ... and most of all, the debts which we failed to settle.*

A word of advice: Make the most out of your last year in high school — be it academically, socially or emotionally.

We, therefore, appoint our beloved principal as the lone executor of the things we mentioned above.

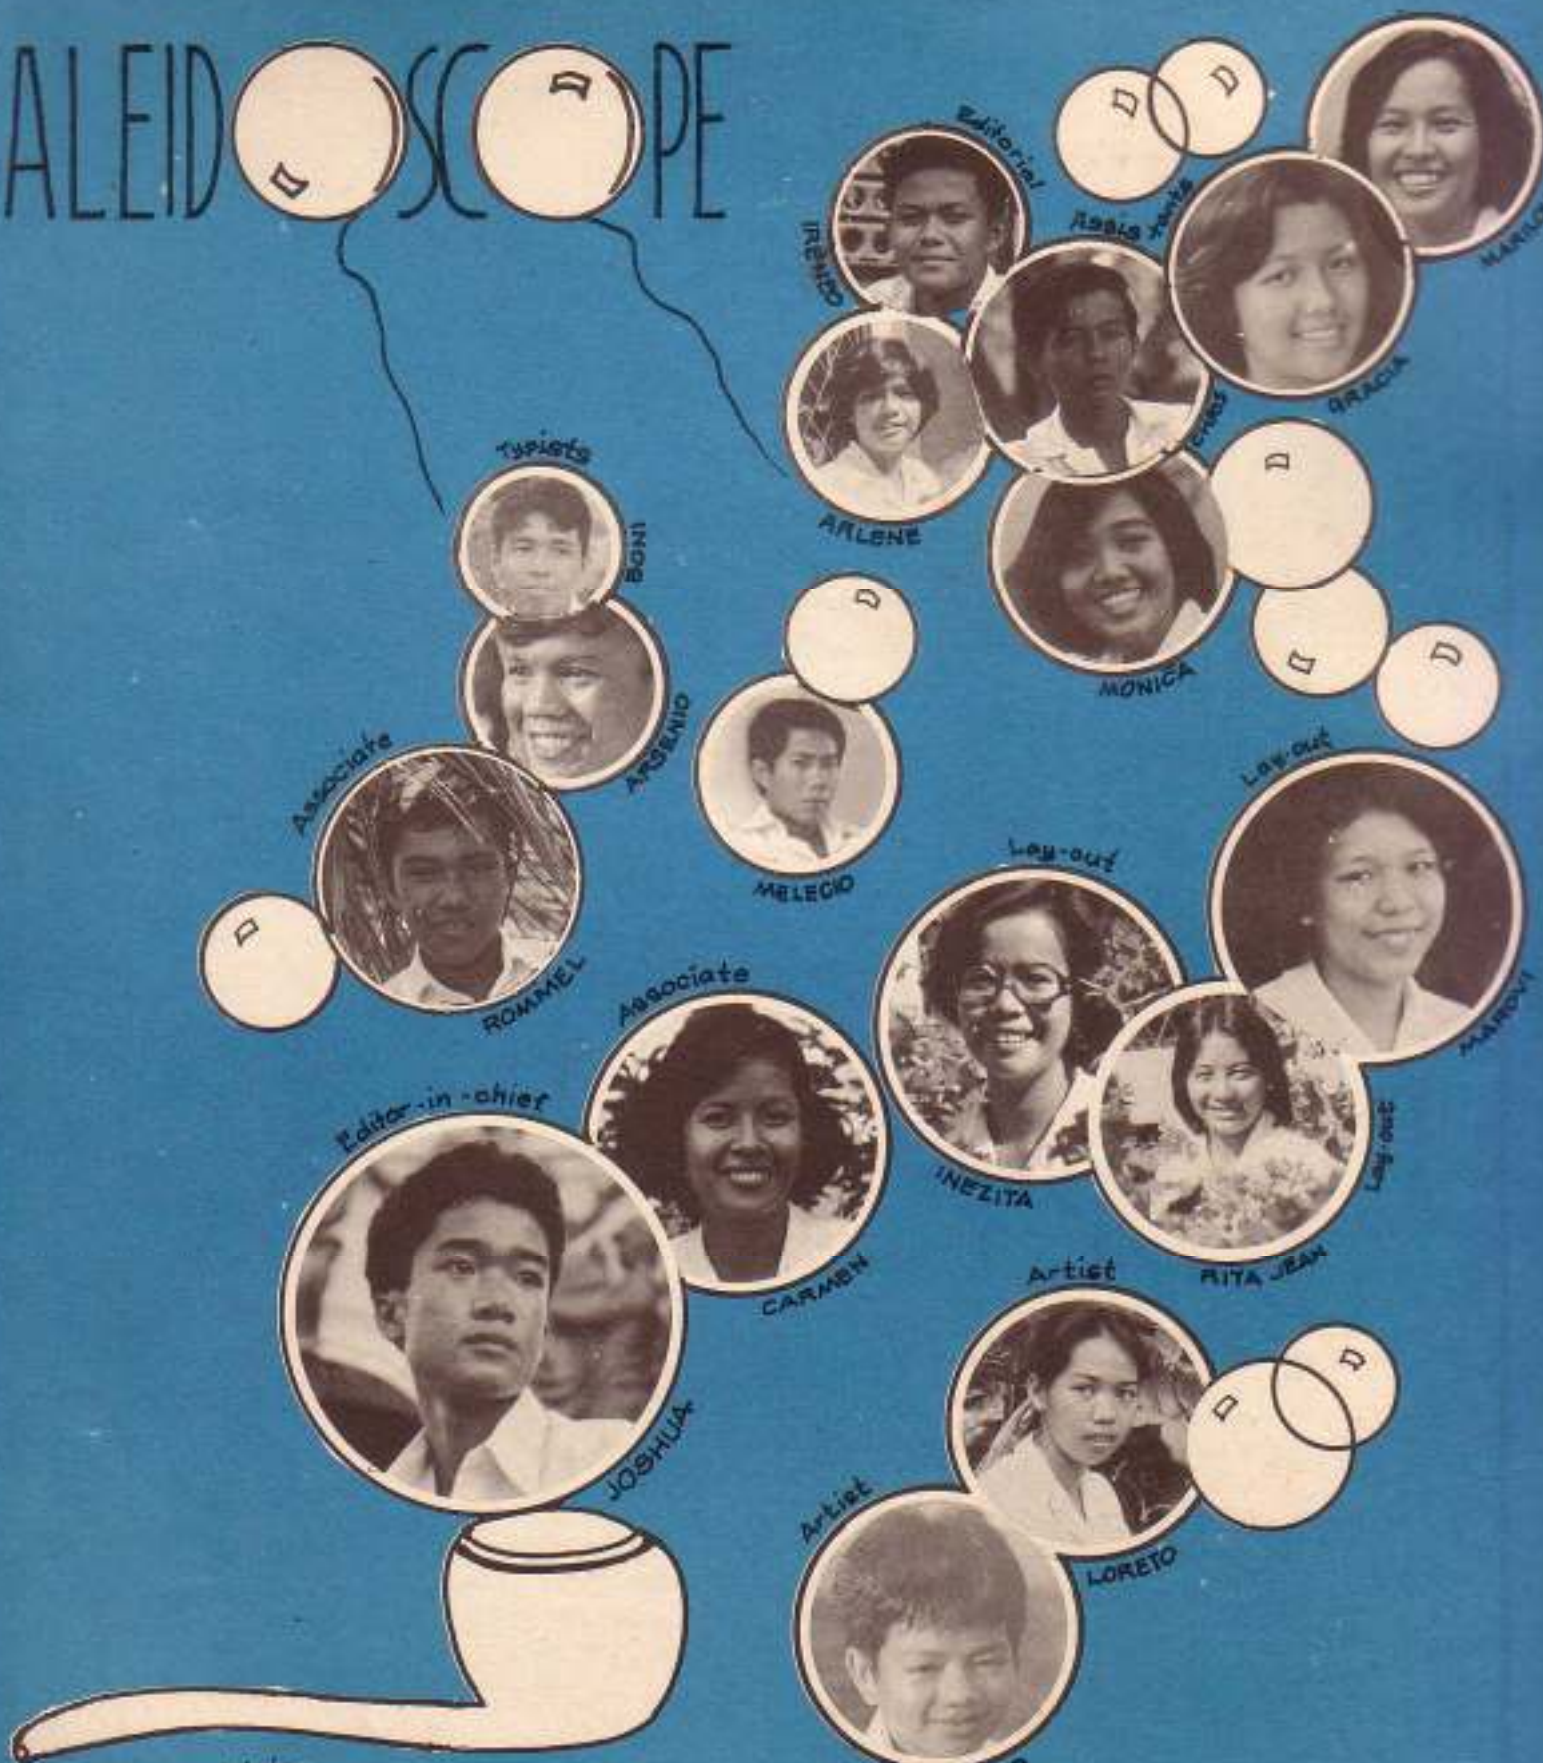

By virtue of the powers vested in me by the Class as Testatrix, I therefore affix my signature this First of April (April Fools) nineteen hundred and seventy-eight.

Signed:

THE SENIOR CLASS
Testator
